in Demonstration Area

WHAT is a woonerf?

A Dutch term that translates to “living street,” a woonerf is a shared street designed for bicyclists, pedestrians, and low-speed motor vehicles.

The Town of Huntersville has invited professional planners to conduct a 3-day community workshop to explore transportation and urban design alternatives for Maxwell Avenue. This project is the next step in implementing Huntersville’s 2040 Community Long Range Plan.

Business owners in the study area and all residents are encouraged to attend this fun public engagement opportunity!

For more information, visit letsplanhuntersville.org or contact Heather Maloney, Transportation Planner at hmaloney@huntersville.org or 704-766-2214
