

Greenway Connectivity and Downtown Planning

Huntersville Greenway Connections

- All Huntersville residents will have the ability to come downtown via greenway and sidewalk connections
- Huntersville, Cornelius, and Davidson will be connected via greenway
- Huntersville will be the mid-point of the NC/SC state line to Statesville Seam trail

As part of Downtown planning, we have an opportunity to consider features that would make Huntersville a greenway destination

Greenway Trail and Bikeway Commission

Spine of the Vine Vision

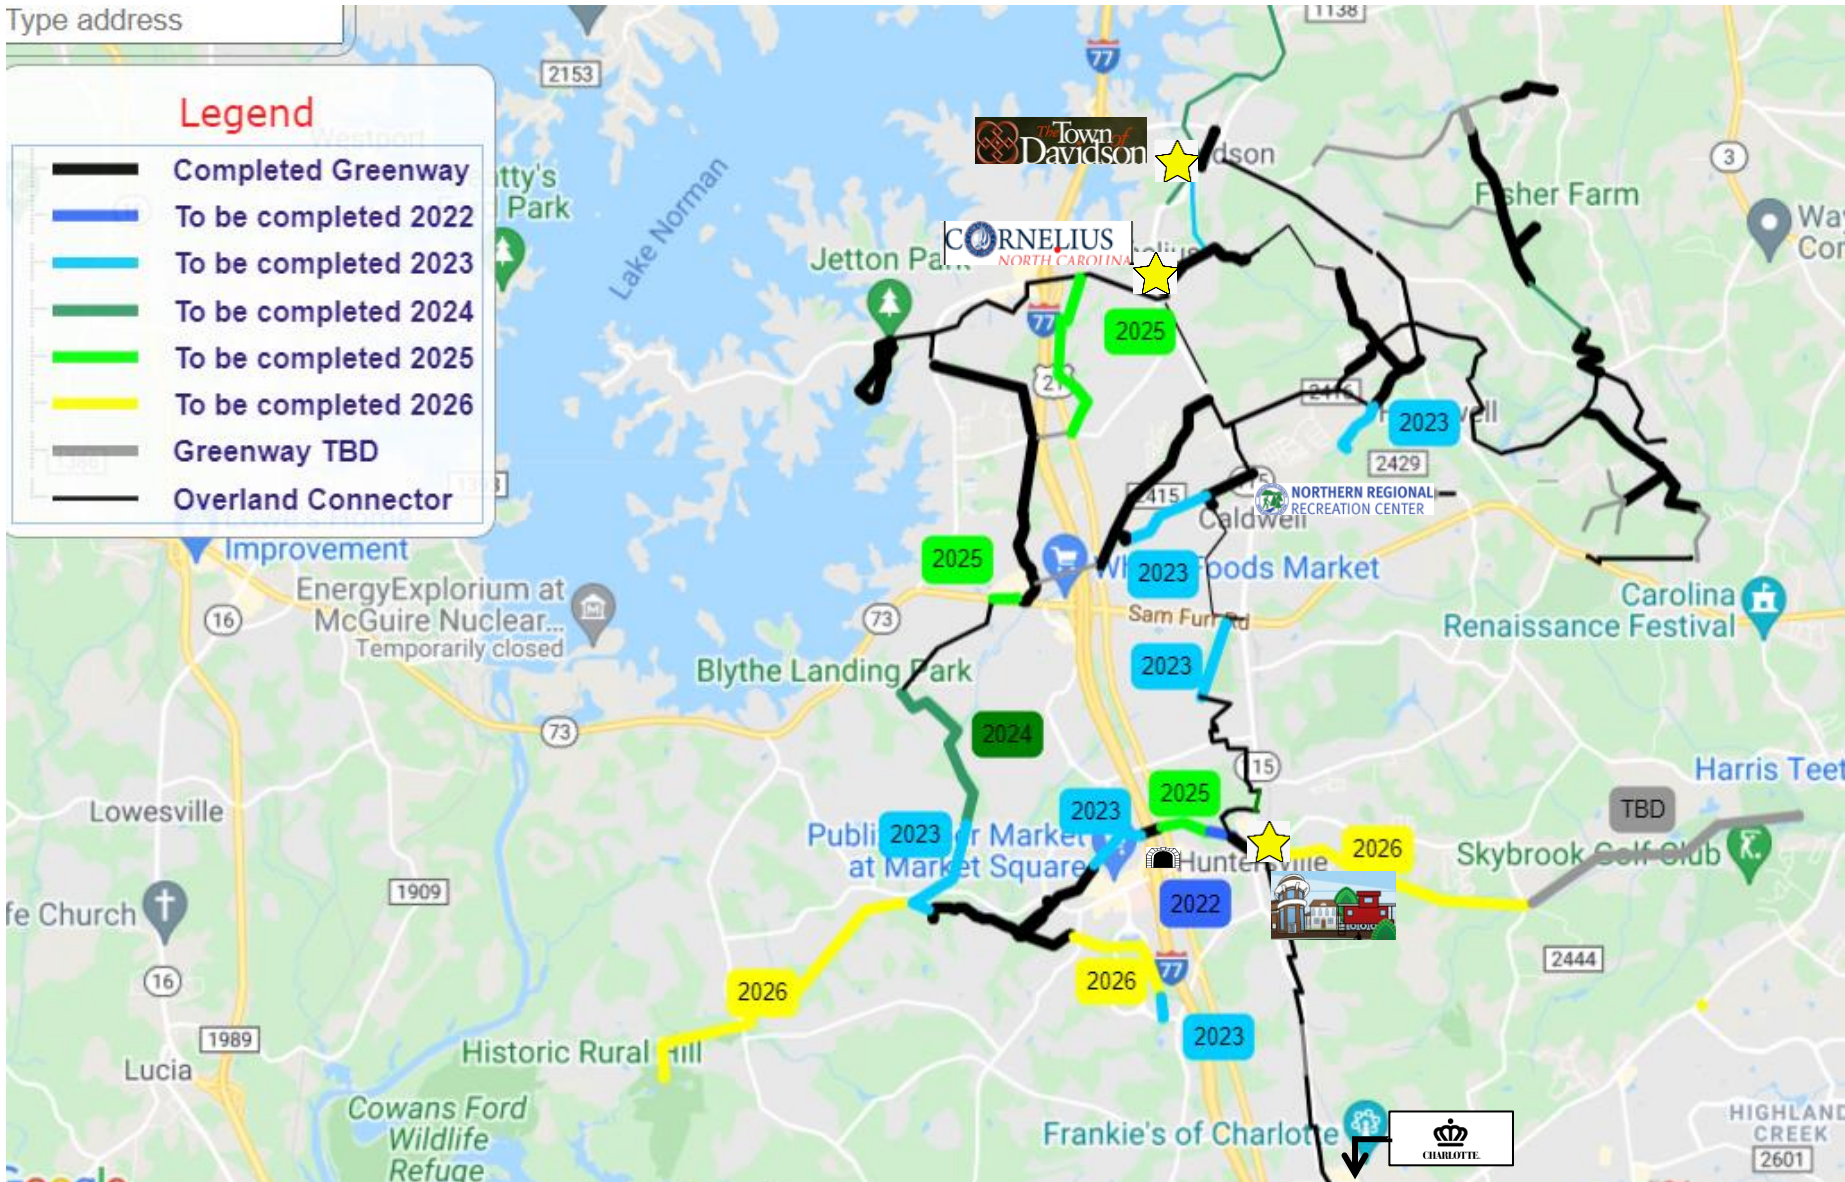

- Goal is to add 14 miles of greenway creating north/south and east/west Huntersville connections by 2030
- Currently 11 miles/80% of goal is **funded** and **targeted for completion** from now through 2026
- GTBC is working to have the remaining miles prioritized for completion by 2030 or sooner
- GTBC is also working with the town to complete **sidewalk gaps** connecting *every neighborhood, school, park, and major shopping center into the greenway* by 2030 or sooner.
- The greenway and sidewalk connectivity goal **will result in every Huntersville neighborhood being connected to our Downtown**

Connectivity to Cornelius and Davidson

- Tunnel opening and North Meck Park Greenway completion will connect the downtowns of Huntersville, Cornelius, and Davidson
- Current projections show these connections being completed in 2023 and 2024
- This will open up a network of greenways and multi-use paths between Huntersville, Cornelius, and Davidson

Connections to Davidson and Cornelius with Target Dates

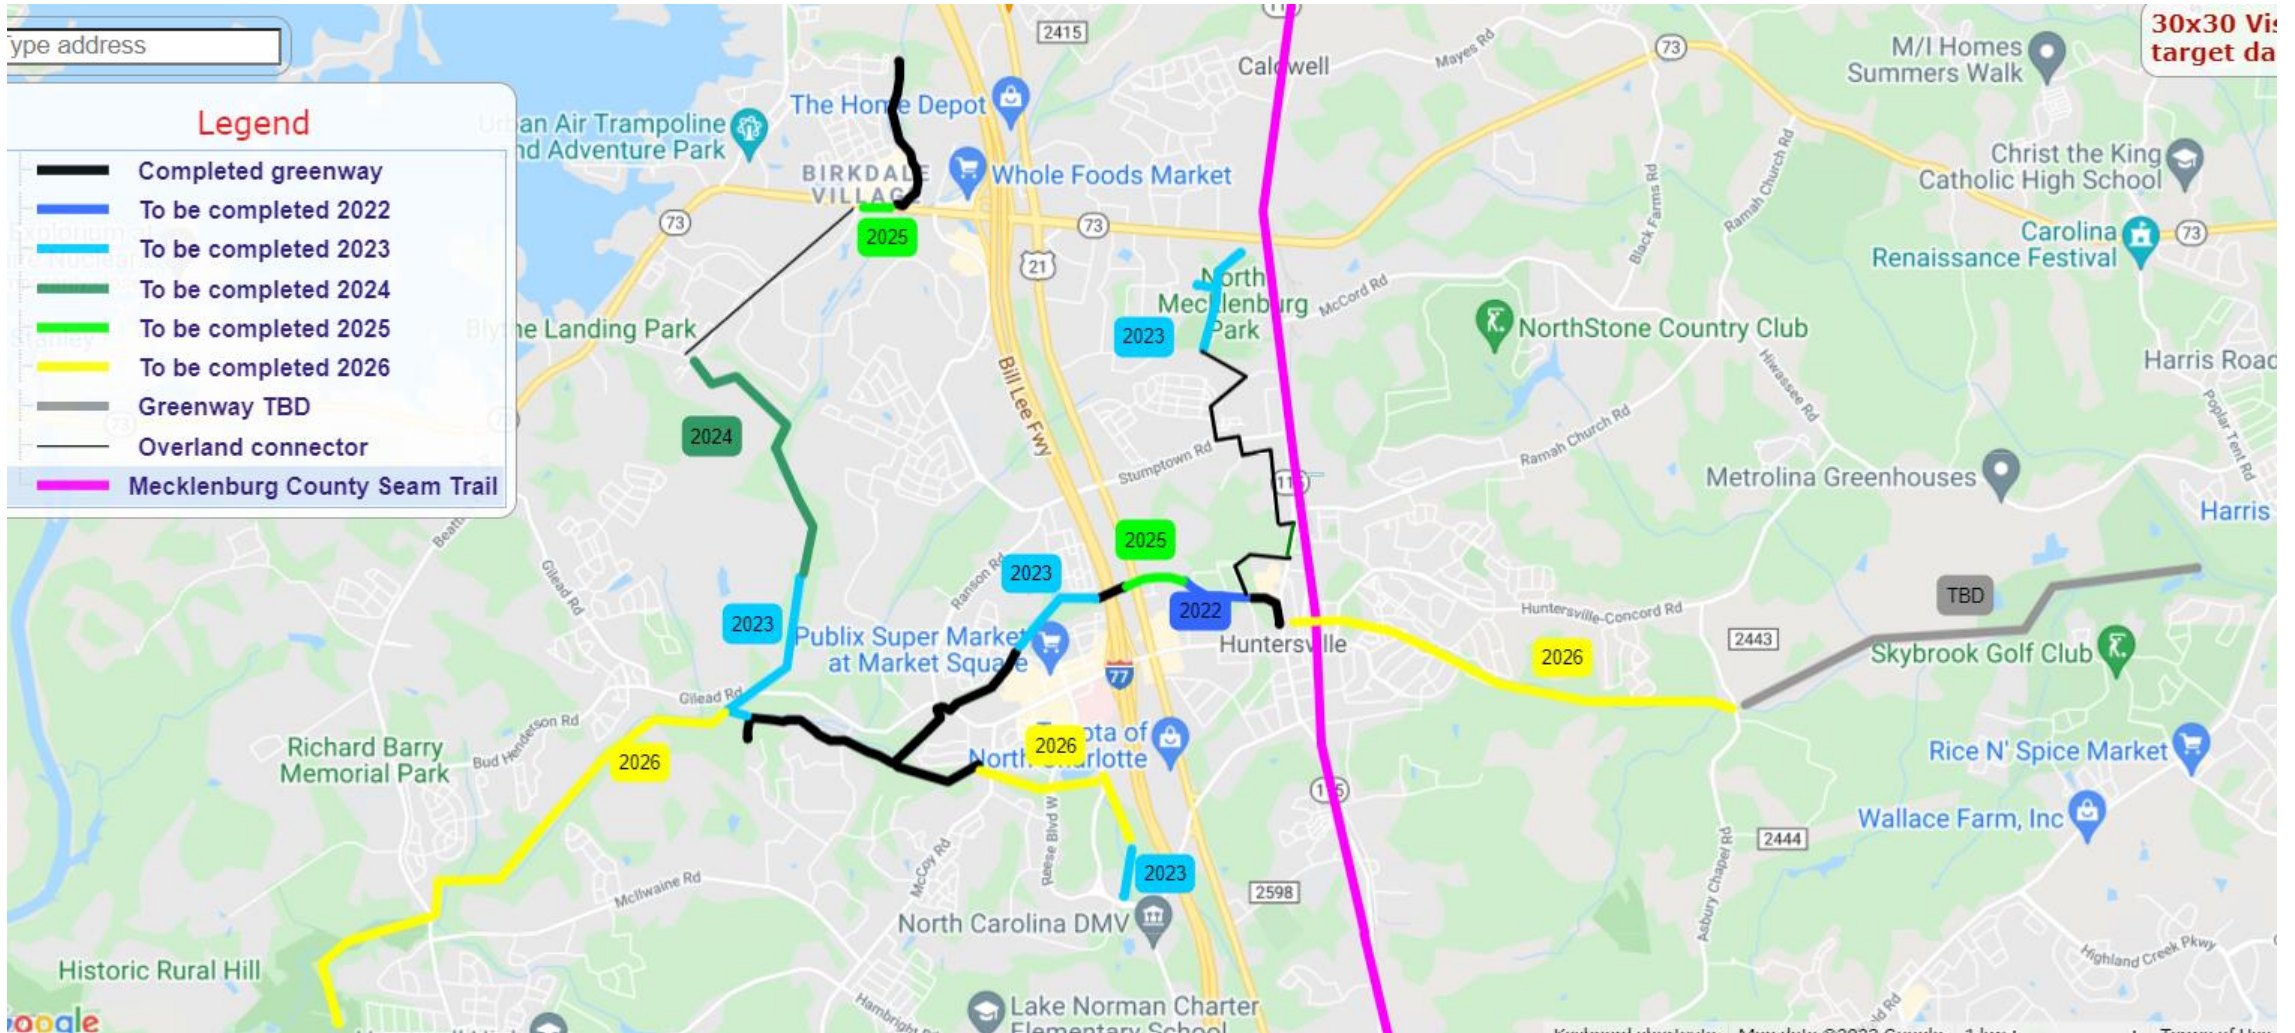

Mecklenburg County 'Seam' Trail

- The Mecklenburg County Seam trail is planned to connect from the NC/SC state line to Statesville, running in close proximity to 115
- This trail will be about 50 miles long and projected to be the longest trail in the area.
- The mid-point will be downtown Huntersville
- Current Status: A planning study has been funded in partnership with NCDOT and the Jurisdictions to advance the implementation of the trail

Mecklenburg County Seam Trail

Huntersville Downtown Planning

As part of Downtown planning, we have an opportunity to make Huntersville a **greenway destination**

- *Plan for amenities that are attractive to greenway users*
- *Consider unique features that would set Huntersville apart as a greenway destination*

Thank You
